ABOUT ME

My name is Matt and I am a Front End Developer coming from a sales and customer service background - always leading and managing teams. I have an entrepreneurial spirit with excellent communication skills.

I am passionate about learning new technologies to level up my skill-set as a developer. With that said, I love working with modern JavaScript and React to create components that are high performing, reusable and accessible.

PROFESSIONAL EXPERIENCE

HACKERYOU COLLEGE OF TECHNOLOGY
MENTOR | 2019

- Mentored a HackerYou HTML/CSS workshop where I assisted answering students' questions and helped debug their code.

GET CONNECTED TELECOM - BELL AUTHORIZED DEALER
ASSISTANT MANAGER | 2017-2018

- Maximized sales and profits through effective leadership of people, inventory control, and fixed assets as set out by the district manager.
- Promoted an in-store culture that focused on consistently delivering an excellent customer experience.
- Learned how to implement CRM software (Pipedrive) as a tool to prospect Small Business customers to come in and upgrade their phone plans at our location specifically.

SOLSTICE BUSINESS SOLUTIONS
TEAM LEADER | 2015-2017

- Led and managed a team of 3-5 sales reps working 100% commission.
- Promoted self-development to my team through books, TED talks, podcasts, and networking with top performers in the company.
- Consistently hit individual and team sales quotas on a weekly basis of minimum \$500 in commission per week per rep.
